Doordefender Ecommerce Website For Distributors

Dear Doordefender distributor you are looking at an example of the Doordefender Ecommerce website that will help you sell the doordefender and family of products. In this example you will see an introduction page, a product feature page, a family of doordefender products page and the purchasing page. Each page can be tailored to your own doordefender website and the products you sell. This website is available at a preferred cost and only for official doordefender distributors. The doordefender marketing partners will work with you to design your site, connect it to the internet and optimize your website anywhere in the world and in any language.

I thank you for considering to become a doordefender distributor, the first and original car door protection product. The doordefender is the number one selling car door protection product around the world and the #1 choice by automobile enthusiasts everywhere.

I look forward to you joining the Doordefender team.

Sincerely

Kirk Hochrein
President and Inventor
The Doordefender Company

DRIVEN TO PROTECT.

**ORIGINAL
DOOR PROTECTOR**

PATENTED DESIGN

The DoorDefender® is a patented product that has been designed specifically with vehicle owners in mind. We know you cherish your investment, and we do too.

AIRCRAFT SECURITY CABLE

The DoorDefender's aircraft grade security cable and high density rubber tether prevents theft attempts by providing a nearly "sever-proof" link to your vehicle.

VEHICLE COLOUR MATCHING

The DoorDefender® is the ONLY car door protection product that can be matched to a variety of paint colours. For a full listing of colours visit the [DoorDefender® Store](#).

NO SCRATCH FELT BACKING

The felt backing of each DoorDefender® product prevents the high-intensity earth magnets from scratching the surface of your car.

WEATHERPROOF FABRIC

Each DoorDefender® is designed using weather proof fabric that is capable of withstanding most environmental conditions. Whether it be rain, snow, sleet, or hail, the DoorDefender® can handle it all!

FORM FITTING

The DoorDefender® is designed to be flexible. This natural feature allows each of the DoorDefender® products to easily form fit the contours of nearly any vehicle.

DISTRIBUTOR SITE

ORIGINAL DOORDEFENDER®

The Original DoorDefender® is a sleek vehicle door protector (available in a variety of colours) that prevents dents, dings and scratches to your car's paint and body when parked. This two bumper unit spans a total of more than 56 inches (1422mm) and easily protects most standard sized vehicles.

COMPACT DOORDEFENDER®

The Original's smaller brother, the Compact comes complete with two bumpers connected by an aircraft security cable and tether system. Each bumper of the Compact spans 20 inches (508mm) and has been specifically designed to fit the increasingly popular compact foreign and domestic car models.

[Available Summer 2010](#)

MINI DEFENDER

The versatile Mini DoorDefender® is small, but capable. Spanning a mere 7 inches (178mm) in length, it's perfect for mounting on localized trouble spots. Need to open your door but the car next to you is too close? Place the Mini on the edge of your vehicle's door to prevent door on door contact!

[Available Summer 2010](#)

MAXI DEFENDER

The Maxi is the largest of the DoorDefender® products spanning an incredible 40 inches (1016mm) in length! The Maxi is ideal for preventing door dents and dings on sports cars and coupes due to its extended length. Additionally, this product can also protect your car's roof when transporting large items.*

[Available Summer 2010](#)

UTILITY DEFENDER

The Utility is a single bumper unit that can be used on various parts of your vehicle. From car doors, fenders, trunk lids, hatches, roofs, and anywhere else it's needed, the Utility does the trick. To further enhance this product, it has been fitted with a security cable and tether to prevent theft when left alone with your vehicle.

GARAGE & VALET DEFENDER

For dual parking protection, make use of both the Garage and Valet DoorDefender® products. The Garage is a wall-mounted unit that prevents your car door edges from making contact with the walls of tight garages and carports. Additionally, the Valet serves as a parking marker that is mounted by an aircraft cable to the ceiling of the garage.
