DRIVEN TO PROTECT.

NOTE: All DoorDefender® bumpers are approximately **64mm (2.5")** in diameter.

1 • The Original

This sleek magnetic bumper protects a variety of vehicle doors from damage when parked. The Original attaches directly to the vehicle's door panels and is safely secured to the vehicle using a tethered aircraft cable. The Original is available in a variety of colours.

2 • The Compact

Sharing the same great features as The Original, The Compact has been specifically designed to accommodate compact class vehicles. The Compact is available in a variety of colours.

3 • The Mini

This small and versatile model is easily placed on any localized trouble spots that require temporary protection. The Mini is available in *RED*.

4 • The Maxi*

The largest bumper in the DoorDefender® product line, The Maxi is ideal for protecting fenders and hatches when opening in tight spots. Additionally, this model can be used to protect the vehicle's roof when transporting large items. The Maxi comes complete with an aircraft security tether and is available in *BLACK*.

5 • The Utility

This single bumper protects vehicle doors, fenders, trunk lids, hatches, roofs and anywhere else it is needed. The Utility comes complete with an aircraft security tether and is available in *BLACK*.

6 • The Garage

An easily mountable wall bumper, The Garage is ideal for protecting vehicle doors in small garages or car ports. The Garage is available in *BLACK*.

7 • The Valet

The Valet hangs from the garage ceiling and maintains contact with the vehicle's windshield when parked. When parking, The Valet serves as a marker to indicate the ideal parked position. The Valet comes complete with a cable to hang the bumper and is available in *RED*.

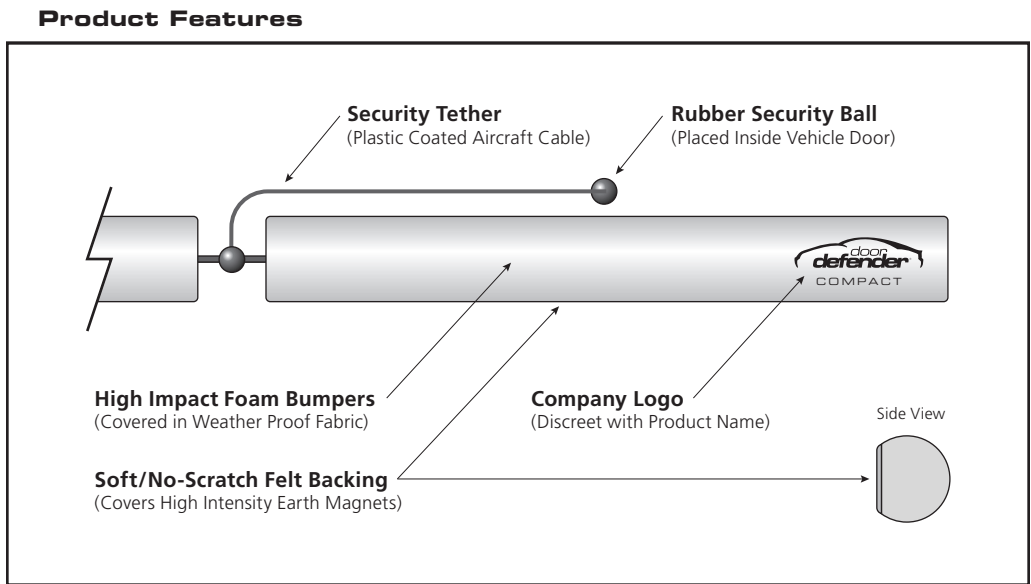

***CAUTION:** The Maxi is not a replacement for a car rack. It has been designed specifically for vehicle protection.
